

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

1-37. (Canceled)

38. (Previously Presented) A flower pot cover comprising:

a base portion constructed of a thermoplastic material or a thermoset material, the base portion defining a receiving space which is sized and shaped so as to substantially encompass and surround an outer surface of a flower pot, the base portion having an upper end, a lower end, and a sidewall extending between the upper end and the lower end, the sidewall being substantially devoid of overlapping folds and having a graphic image disposed on at least a portion thereof wherein the graphic image is visible on at least a portion of the sidewall of the flower pot cover, wherein the graphic image is selected from the group consisting of a rendering of at least a portion of a masterpiece work of art, a rendering of at least a portion of a work of art of a Great Master and combinations thereof.

39. (Original) The flower pot cover of claim 38, wherein the base portion further comprises a closed bottom.

40. (Original) The flower pot cover of claim 38, wherein the base portion further comprises an open bottom.

41. (Original) The flower pot cover of claim 38, wherein the base portion further comprises a partially closed bottom wherein at least one open area is formed in the bottom.

42. (Original) The flower pot cover of claim 38, further comprising a skirt extending from the sidewall of the base portion.

43. (Original) The flower pot cover of claim 42 wherein the skirt is connected to at least a portion of the sidewall of the base portion.

44. (Original) The flower pot cover of claim 38, further comprising a sleeve portion extending above at least a portion of the base portion.

45. (Original) The flower pot cover of claim 44, wherein the sleeve portion has an open upper end.

46. (Original) The flower pot cover of claim 44, wherein the sleeve portion extends about at least a portion of a floral grouping when the floral grouping is disposed within the flower pot.

47. (Original) The flower pot cover of claim 44, wherein the sleeve portion has a closed upper end.

48. (Original) The flower pot cover of claim 44, wherein the sleeve portion is detachable from the remainder of the flower pot cover.

49. (Original) The flower pot cover of claim 44, further comprising a skirt extending from the base portion, and wherein the sleeve portion is connected to the skirt.

50. (Original) The flower pot cover of claim 49, wherein the sleeve portion is detachable from the skirt.

51. (Original) The flower pot cover of claim 49, further comprising a detaching element for detaching the sleeve portion from the skirt.

52. (Original) The flower pot cover of claim 38, wherein the flower pot cover is formed from at least one process selected from a group comprising a thermoformed process, an injection molding process, a blow molding process, a casting process, a stamping process, an extrusion process, a vacuum formed process, and combinations thereof.

53. (Original) The flower pot cover of claim 38 wherein the sidewall is flexible and shape-sustaining.

54. (Original) The flower pot cover of claim 38 wherein the sidewall is semi-rigid.

55. (Original) The flower pot cover of claim 38 wherein the sidewall is rigid.

56-63. (Canceled)
